

PRIMA TECH USA

FOR IMMEDIATE RELEASE

Prima Tech USA is proud to introduce their new line of disposable needles. These ultra sharp, tri-beveled needles are available with either aluminum or plastic hubs and are manufactured in a variety of popular sizes. Prima Tech USA packages their needles in boxes of 100, and utilizes color-codes boxes for easy size identification. A specially formulated anti-friction coating allows for a smoother injection, therefore reducing animal stress. Prima Tech needles are autoclavable, nonpyrogenic, and sterile. These needles are value priced with the end user in mind. Ask your animal health supplier for these and other quality Prima Tech USA products or call Prima Tech at 888-833-7099 for more information.
